Tattva School

**Dear Parents,
Greetings!**

Education is not the learning of facts, but the training of the mind to think." There is no end to education; it is not only what you read in a book, or how you pass in Examination. The whole of life, from the moment you are born to the moment you die, is a process of learning".

Tattva school is committed to the cause of education and dear students, amongst positive learning experience partnering with Pearson-the world's largest learning company. Amongst you sits an Einstein, a Subhas Chandra Bose, an APJ kalam. Tap that one talent that makes the Sachin or Shakespeare of your class, excel in whatever you choose. All the best for your future.

Proud to be an INDIAN

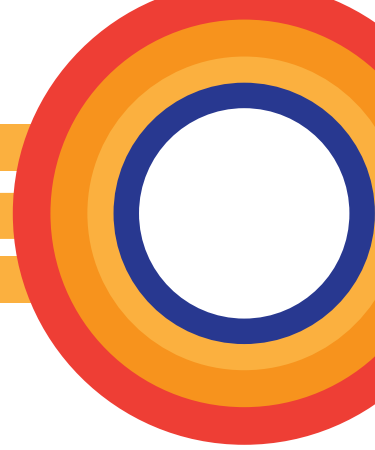

We all as wish to become Engineers, Doctors, Pilots, Dancers, Movie stars, Entrepreneurs One day after sensational movie 'URI-The surgical strike' made it to the theaters, there has been a beginning fire in the young Indian ignited minds to join the Indian army. We are safe where ever we are because of them. We are blinded by their sacrifices and hardships. We sometimes blame our fate while they constantly fight for the safety of our lives. It's time we pay our respect to them in our prayers everyday and thank them for their selfless devotion to safeguard our country.

The tales of sacrifice and courage of the Indian Army makes our chests swell with pride and eyes a little moist. They beat the heat and cold, so you and I can sleep peacefully. It is indeed agonizing to know about the terrorist attack in the Pulwama district of Jammu and Kashmir, on 14th February, 2019. This led to the death of several of our brave soldiers. The stories of their bravery and values shouldn't be remembered once in a while, but should be cherished forever.

In my eyes the Indian Armed forces not only protect India but it bind India with its heart and soul. We must forever be indebted to the services of our soldiers who dedicate their lives and spend sleepless, tireless nights for the benefit of our country.
