

From the Principal's Desk

Dear Parents,

Greetings from Tattva School!

It is business as usual at Tattva School now. All teachers are busy with their portion completion and revision. Class observations are going on as scheduled and feedback is shared with teachers subsequently and follow ups are done as always.

The Pre-primary sections are working very well and multiple days are celebrated during the special assemblies on all Thursdays. Effort is on to engage the students effectively in all the areas. The concept check was organized creatively this time. Bala Mela was conducted in the Resource room 'Jadui Pitara', where the students came prepared with various materials and explained the concepts of Literacy, Numeracy and General Awareness, confidently and effortlessly. It was a great show and would like to acknowledge the efforts of both parents and teachers alike.

The CCA, clubs, Computers, Life Skills, Sports, Music and Dance are all being conducted as per schedule. The students have written their periodic Test 1 and informal assessments have happened for Pre Primary students too. The PTM is scheduled on 3rd August. The parent feedback will be discussed with the respective class teachers, subject teachers and necessary modifications will be made in the teaching-learning journey of your child at school. Grades IX to XI will be writing their PT1 from 1st August.

I would like to share with you a couple of other initiatives in July month. The school team selection has been completed and the teams are practising on two days of the week Tuesdays and Thursdays at school. After school sports coaching has started and students are coached on three days, Mondays, Wednesdays and Fridays. I am really excited to share that the Canteen has started in school and hot food is served to our students and teachers at nominal costs. Regular checks at the canteen are conducted by the HSCP committee.

Setting up of PTA, Tirangaa, Independence day celebrations, Sports Mania and Field trips are scheduled in August and need your wishes for effective execution of the same.

While I request you to take proper care of your wards in these rainy months, I sign off with this quote by Audry Hepburn, "Nothing is impossible, the word itself says 'I'm possible!'"

Quote of the month

"The highest education is that which does not merely give us information but makes our life in harmony with all existence".

- Rabindranath Tagore

Events & Activities

Grouping the Shapes of 4 - Prep II

With cut out shapes, students were instructed to form two groups of four distinct shapes.

Outcome: Students will learn the differences between different objects and group them together based on different simulate rates.

'an' Family Words - Prep II

Outcome: Students will be able to recognize words that rhyme with - an words. Students will be able to create words that are in the same - an word family. Students will be able to differentiate between words that are in different word families, such as the difference between - at words and - an words.

Children Learning Numbers by Using Cube Prep I

Children learning numbers by using cube.

Outcome: Students begin to learn to recognise numbers. They learnt to identify the numbers in a fun way by playing hopscotch.

Square Bird - Nursery

To help children identify and name different shapes, and understand their properties.

Outcome: An activity where children were asked to identify different shapes on a cut-out that features various shapes like squares, triangles, and circles. Children's were asked:

Activities @ School

a) Can you pick the square shape and paste it on your drawing book?

b) Which shapes are circles?

c) Can you count how many triangles are present?

This type of activity helps kids develop their shape recognition skills and spatial awareness.

Biggest and Smallest - Prep II

Children are encouraged to explore the cubes through touch and sight, and to arrange them in order from biggest to smallest.

Later children were asked to make 3 balls using clay to understand biggest and Smallest concept.

Outcome: Children can develop their ability to recognize and differentiate between sizes, as well as their hand-eye coordination and concentration skills.

Culmination (Bala Mela) - Pre-primary

Children were asked to make models of shapes in different colours to present a presentation on it in 3 to 4 sentence...

Outcome: There are various advantages that culminating events offer to young kids. Students get more motivated when they present material to others, and this can lead to deeper learning. Students retain experiences, synthesise knowledge, and decide which parts are most crucial to impart to others as they reflect on their learning and accomplishments. They also need to make and adhere to a plan.

Activities @ School

Kannada Letter Activity

Children were asked to create a letter ಁ using clay and trace on it.

Outcome: Children develop hand-eye coordination by squeezing, patting, and pounding the clay. They also develop finger and hand muscles by poking and pinching the clay. It allows children to be creative and learn about texture, shapes, and forms by manipulating the clay by rolling, cutting, and shaping it. It includes play-based learning too.

English Pattern - Prep I

Any sets of shapes, numbers, letters or objects that are repeated over and over again help children learn about patterns.

Outcome: Students begin to learn to recognize basic shapes like circles, ovals, squares and rectangles. They will learn that the shapes often form patterns that can be orderly and sequential and others that might appear to be random. They will learn to identify these patterns in inanimate and animate objects.

Co-Curricular Activities (CCA) - Nursery

Creating Your Home Collage

Outcome: Creating a house collage using different shapes like triangles, rectangles, circles, and squares is a fantastic and engaging activity for children! It helps them understand basic geometric shapes and fosters creativity. This activity not only enhances fine motor skills but also boosts spatial awareness and problem-solving abilities. Plus, it's a lot of fun and educational way for children to explore geometric shapes and improve their fine motor skills. It also provides an opportunity for self-expression and creativity as they build and decorate their dream house.

Activities @ School

Tent House Fun Activity - Nursery

Hey everyone! We've set up a special tent here at school. How about we have a fun party with all your friends inside the tent?

Outcome: Sitting inside a tent with friends in small groups can create a cozy and enjoyable atmosphere for children. It allows them to bond, play games, or simply chat together in a more intimate setting. Plus, it adds an element of adventure and fun to their playtime!

Heaviest and Lightest - Prep II

Students were asked to lift the things and say which one is the heaviest and lightest in the given 3 objects by comparing their weights.

Outcome: It benefits children to be aware of the different types of objects. It assists children in learning how to compare two or more objects as well as in identifying which objects they can pick up easily and which ones they cannot.

Colours (Pompoms) - Prep II

Children were asked to pick pompoms that matched the colour of the painted cups and place them inside the corresponding cup.

Outcome: Pompoms are fantastic for promoting the development of children's fine motor skills and dexterity. They provide a fun and engaging way for children to learn colour matching, develop independent play skills, and enhance concentration. This activity not only stimulates their creativity but also encourages them to focus and engage in a task, fostering important cognitive and physical abilities.

Activities @ School

'am' family words - Prep II

Children were asked to read and create the words using clay.

Objectives: Learning about CVC words is an important tool in phonics as it can help children with reading, writing and rhyming three-phoneme words. CVC words help introduce children to reading by first learning the sounds of the individual letters, digraphs or trigraphs and blending those three sounds into a whole word.

Fish Craft - Nursery

It helps children recognize the shapes, creativity & artistic expression.

Outcome: When using specific shapes like triangles, hearts, and circles in a fish craft activity, the objectives become more focused and tailored to those shapes. Overall, incorporating triangles, hearts, and circles into the fish craft activity helps children focus on shape recognition while encouraging creativity and artistic expression. It allows them to explore the characteristics of each shape and use them in diverse and imaginative ways.

Patterns Clay Activity - Nursery

Children will learn to create and identify standing lines, sleeping lines, and curves using clay.

Outcome: Teaching children how to use clay to create standing lines, sleeping lines, and curves is a fantastic way to introduce them to basic shapes and lines in a fun, hands-on manner.

a) Standing Line: Explain that a standing line goes up and down. Show them how to roll a piece of clay into a long, thin sausage shape and then stand it upright.

Activities @ School

b) Sleeping Line: Explain that a sleeping line lies flat, like someone sleeping. Show them how to roll a piece of clay into a long, thin sausage shape and then lay it down horizontally.

c) Curve Line: Explain that a curve line is smooth and bends, like a rainbow or a smile. Showing them how to create a curved shape by gently bending a piece of clay.

It's a wonderful, interactive way to introduce children to fundamental concepts in a playful and engaging manner.

CCA Activity Balancing Ball - Prep II

Winners are :

1. Navika
2. Disha
3. Modithsurya

Special Assembly

Special Assembly on Doctor Day Nursery, Prep I and II

A day dedicated to recognizing the invaluable contributions of doctors to the society.

To perceive the commitments of doctors, a special assembly was conducted by students of grade nursery, prep I and II. Assembly initiated with a prayer followed by news and thought for the day by prep II students. Teacher of the school, briefed about the importance of hygiene and usage of first aid.

Special Assembly

The whole atmosphere was filled with gaiety when young students dressed up as doctor. The assembly came to a closure with a thoughtful message by praying a perfect tribute to all doctors who have made relentless efforts towards the lives of everyone.

Special Assembly on Cartoon Day

Cartoons are an integral element of every childhood and, without a question, the most fun feature of any child's existence. Kids can learn about new emotions, life challenges, and other significant topics from them as they explore the world around them. On 11th July 2024, the Pre-primary wing of the Tattva school celebrated Cartoon Day. The kids were excited to see their classmates wearing identical outfits when they arrived at school dressed as their favourite cartoon characters. Every child shared how their favourite cartoons had influenced them on a daily basis. As part of the day's activities, the kids watched an hour of instructional cartoons, which gave them the inspiration to dance and speak in an original, creative manner. Colouring the cartoon characters was the activity. Cartoon Day was a day to celebrate and spread good vibes. It brought out the best of the kids' innocent childhood and strengthened their bonds.

Special Assembly on Blue Day

The students of the pre-primary class had a delightful celebration of 'Blue Day' on Thursday 25th July 2024. They embraced the significance of the colour blue through a variety of engaging activities, which filled the day with excitement and enthusiasm.

To mark the occasion, all the children arrived dressed in various shades of blue, bringing a vibrant splash of colour to

Special Assembly

the school. The classrooms were adorned with blue-coloured objects, creating a festive atmosphere.

During the celebration, the students participated in activities such as colouring pictures of the ocean & dolphin in shades of blue and singing themed around the colour blue, like the 'If you are wearing something blue, clap your hands' song. These activities not only entertained the children but also reinforced the concept of the colour blue in a fun and interactive way.

Overall, it was a pleasant and enjoyable 'Blue Day' for the young learners, who soaked in the cool and calming vibes associated with the colour blue throughout the day's festivities.

I recently joined Tattva School as a Kindergarten teacher, and I'm truly enjoying my time here. The environment is wonderful, and my colleagues are incredibly understanding and friendly. Their support has made my transition smooth and enjoyable. Additionally, the principal is very kind-hearted and provides constant motivation, which greatly encourages me in all aspects of my work.

Nursery - Teacher**

PARENT FEEDBACK

As the parents of two children (Alen Maxwell - grade IX 'B' and Evaan Maxwell grade - II 'A') enrolled at Tattva School, we are incredibly pleased with the educational experience our children are receiving. The supportive and dedicated teachers have created a nurturing environment where our kids feel encouraged to learn and grow.

The school's recent emphasis on sports and arts has been a fantastic addition, providing a well-rounded education. The transportation facility after the evening coaching classes is a very good start, making the daily commute convenient and safe for our children.

Tattva School offers numerous opportunities for students to excel, including participation in Olympiads and quiz competitions. The annual field trips for educational purposes are a highlight for our kids, who always look forward to these enriching experiences.

The practical teaching methods, such as using yardsticks, make learning engaging and effective. Regular Parent-Teacher Meetings (PTMs), along with events like Sports Day and Annual Day, ensure every student is involved and celebrated.

The communication through neverskip is excellent. Tattva school allow us to reach out to teachers any time with ease, with response from the teachers within no time as well. Additionally, the infirmary on campus provides peace of mind, knowing that there are facilities to keep students safe and healthy.

Overall, Tattva School has surpassed our expectations in creating a holistic and supportive learning environment for our children.

**- Ms. Nisha Thankachan F,
Parent of Alen Maxwell IX 'B' & Evaan Maxwell II 'A'**

STUDENT'S CORNER

As a student at Tattva School, I feel incredibly fortunate to be part of such a positive and nurturing environment. The teachers here are not only knowledgeable but also very supportive and encouraging. They go out of their way to make sure we understand our lessons and feel confident in our abilities.

One of the best things about Tattva School is the balance between academics and sports. We are encouraged to excel in our studies, but there is also a strong emphasis on physical education and sports activities. This balance helps us stay healthy and teaches us important life skills like teamwork and discipline.

Before our tests, teachers ensure we have thorough revisions, which really helps us to be well-prepared. Whenever I have doubts or need further clarification, the teachers are always there to help. They make sure that all topics are taught clearly and that no student is left behind.

Discipline is also an important aspect of life at Tattva School. The teachers and cabinet members work together to maintain a disciplined environment, which creates a safe and orderly space for us to learn and grow. Overall, being a student at Tattva School is a rewarding experience that prepares us well for the future.

**- Ayana Vinod,
Grade X 'B'**

Star Of The Week

Star of the Week is one of the best ways to get to know our students on a more personal level. Students feel distinct for a full week, which encourages classroom community.
